Commissioner Declares 3000 Guardsmen at Gretna Credit to State

GREAT FUTURE SEEN

Special Dispatch to Evening Public Ledger
Gretna, Pa., July 29.—Declaring that the personnel of the present National Guard is a new type of the old guard, Commissioner of State, C. Martin, State Health Commissioner, today paid a glowing tribute to the 3000 guardsmen in camp here at the close of an inspection tour following the Governor's order yesterday.

"I am," he said, "and the 3000 men who inhabit it are a credit to the State and to the Nation. In all fifteen years connection with the National Guard, I have never seen a more fine looking body of troops than these here today. Some of them, I understand, have had overseas experience, but the majority are new men, and the true military swing after having less than four days of training, is in the country could have been better."

Major General William Fish, division commander, gave a report at division headquarters to the senior army officers who are attached to the camp as specialized instructors. The wives of the officers were also invited to attend. After dinner the 11th Infantry Band, conducted by George W. Fisher, gave a band concert in honor of the 56th Infantry Brigade, now in camp, during the World War.

Colonel Robert M. Brookfield, commander of the 11th Infantry Regiment, said his staff have been greatly encouraged in their recruiting campaign to fill up the gaps in the regiment. This morning a batch of new men arrived at the camp. Since Wednesday morning his staff have been greatly encouraged in their recruiting campaign to fill up the gaps in the regiment. This morning a batch of new men arrived at the camp.

Edward C. Shannon, commander of the brigade, is highly pleased with the work being done by the Philadelphia troops along this line.

This evening Major William Fish, attached to Division Headquarters as inspector for the State, will recognize the following units of the 11th Infantry: Medical Detachment, composed of Philadelphia guardsmen, Captain Charles H. Young and Major Butherford L. John, commanding.

Service Company, to include the regimental band, to be commanded by Captain George C. Frey, Lieutenant Kenneth V. Mosley, Lieutenant John Schneider and Lieutenant George L. Lundley.

Major Fish will also recognize the Second Squadron, Headquarters Troop of the 10th Cavalry, at Lewisburg on July 30, Lieutenant Raymond Young, in command, has sent in the papers for recognition and these have been approved by division officers.

A horse was reported "in a woeful" from camp today. Private Harry Sellers, stable boy, claims it is not the proverbial "old gray mare" of the army.

150 BATHERS ARE STUNG BY SCHOOL OF JELLYFISH

Treated at Hospital Near Boston, May Close Beaches
Boston, July 29.—More than 150 bathers were treated at a hospital in Allerton and thousands more were driven from Nantasket and adjoining beaches yesterday when a school of red jellyfish drifted in shore and severely stung all who came in contact with their tentacles.

Health authorities today said bathing at the invaded beaches might be stopped until the fish go away.

This species of red jellyfish is commonly called the "stingaree" and sometimes the "Australian stingaree," because it is commonly found in Australian waters. The feelers exude a poisonous substance which infects the skin and causes swelling and pain.

Health authorities today said bathing at the invaded beaches might be stopped until the fish go away.

PENALTY CAUSES FUROR IN CAMP

Virtual Apology Finally Pacifies N. J. Officers, Who Threatened to Resign

MORALE OF 113TH HIT

Special Dispatch to Evening Public Ledger
Camp Edwards, Sea Girt, July 29.—Only the timely unofficial apology of Colonel Edward Phillips, of the 113th Infantry, is believed to have averted a wholesale resignation of officers and the resultant demoralization of that regiment and the Fifty-seventh Infantry Brigade, commanded by Brigadier General Howard S. Borden, of which the 113th is a unit.

As it is, the morale of the regiment, so far as the official personnel is concerned, is badly shaken and will require some time to re-establish its old esprit de corps.

An order confining every officer and man to the camp on Wednesday night was the cause of the furor. General Borden's intervention in a diplomatic and energetic manner led to the admission by Colonel Phillips, made at an officers' conference, that he had acted too hastily.

It was upon a report which Lieutenant Colonel Theodore McC. Marsh, of East Orange, turned in to Colonel Phillips that the regimental commander's disciplinary action was taken and the row precipitated. Colonel Marsh declared the regimental camp was in a filthy condition. Colonel Phillips immediately issued the order restraining every officer and man from leaving the camp until it had been restored to a condition meeting with "his approval."

Tuesday night the entire camp was virtually blown to pieces by a terrific storm, and the men were given only one hour from their regular schedule of work on Wednesday in which to clear up the debris.

President Starts a Boom
Vacation Trip Triples Hotel Rates at Lancaster, N. H.

Washington, July 29.—A commercial boom whose rumblings have been felt all the way back to Washington has been started in Lancaster, N. H., since it developed that President Harding is to spend several days near there next week, at the home of Secretary Weeks.

Before the President's plans became known a telephone call from the White House to the Village Hotel elicited the information that rooms with bath readily could be obtained for \$2.50 a day. But today the hotel keeper wired as follows: "All our baths now engaged for next week. We are now American plan, \$6 a day."

Partly Collapses While Speaking in Senate—Quickly Improves
Washington, July 29.—(By A. P.)—Senator Norris, of Nebraska, suffered a partial collapse in the Senate yesterday at the close of an address of nearly three hours. The effort, combined with intense heat, exhausted him and he was taken to an adjoining committee room, where first-aid remedies were applied by Senator Ball, of Delaware, a physician.

Senator Norris later was taken to his home and today it was said he was much improved and out of danger.

OSTEOPATHS END MEETING

Dr. Russell to Be Asked to Explain Connection With Stillman Case

Cleveland, O., July 29.—(By A. P.)—Normal blood, both in quantity and quality, will prevent the presence of disease, Dr. W. Curtis Brigham, of Los Angeles, declared here today before the closing session of the twenty-fifth annual convention of the American Osteopathic Association.

What are termed circulatory whirlpools in the child's body are caused by abnormal postures, Dr. Brigham explained. The circulatory whirlpools, in addition to poison from improper diet and poor care of the teeth, cause chronic diseases, and if they are properly cared for in early youth, many operations will be avoided with a saving estimated at \$2,000,000,000 annually, he said.

Psychologically, the brain is the least important part of the body and the pituitary body, one of the ductless glands, is by far more important, Dr. Ernest E. Tucker, of New York, told the delegates. The mind is the action of the body rather than of the brain.

The alleged violation of professional ethics by Dr. H. L. Russell, of Buffalo, in testifying in the Stillman divorce case, was up before the house of delegates of the American Osteopathic Association yesterday and a heated discussion ensued. The New York Association of Osteopaths was ordered to make a thorough investigation and submit a report with recommendations to the national organization.

Want to Keep Your Hair Perpetually Curly?

Perpetually wavy or curly hair is now within the means of every woman to possess. One need only get a few ounces of Liquefied Silmerine from the drug store and apply a little of it occasionally with a clean tooth brush before doing up her hair. When this dries, the most beautiful and natural looking waves and curls imaginable are in evidence. Wind and heat do not affect the curlsness as with other hair preparations. Liquefied silmerine is so pure and harmless that it is not the slightest danger of irritating the scalp or streaking the hair. It leaves no sticky or greasy traces which are so objectionable as a beneficial treatment, as it keeps the hair so soft, pliant and lustrous.—Adv.
